White areas indicate transportation available

TRANSPORTATION SERVICE AREA
Any Division elementary student enrolled in an elementary alternative program, who lives outside the walking boundary of the school but within the Transportation Service Area, may apply for yellow bus service to that school.

The Transportation Service Area described on this map is used for determining transportation eligibility and identifies that long ride-times may occur. One-way student ride-times may extend up to and exceed 90 minutes. The map also identifies areas where transportation is not available and areas that may be serviced depending on ride-times, student demand or bus load.
